## BOBBY BROWN WRITES

Good afternoon,

Today we welcome the players and officials of Swindon Town, who, whilst not having accomplished a great deal in the league this season, have had a great run in the F.A. Cup, eventually going out to Nottingham Forest.

Points at the moment are very hard to come by and we desperately need two today to be in with any sort of a chance of keeping in Division Three. You can be assured of one thing, however, the boys have been giving their all and a continuance of the fight and endeavour shown on our trip to Watford and Colchester would be most heartening. I would also add that I consider we were most unfortunate not to have returned with at least three points, but as I have said, there are six matches remaining after today and all is not yet lost.

At the time of writing this the injury problem is most acute. We have John Lumsden, Alan Kirkman and David Butler very doubtful for Saturday. There are three or four others slightly injured but will probably all be available for selection.

Finally, please give the lads all the vocal support possible because it can help a great deal, as I know.

BOBBY BROWN.

The visit of Swindon Town to Borough Park can have vital repercussions to the Town, according to the result of the game, for they are in dire need of precious points to get them out of the relegation zone.

In the last two or three weeks they have eased the situation as far as they themselves are concerned, but they are still in danger of being one of the bottom four to go down, that is if the teams below them make a successful attempt to keep their heads above water. Two points gained at Borough Park today should almost see them clear.

Swindon Town were in the original Third Division when it was formed in 1921, in general they have rarely finished in the bottom half of the table, and on a number of occasions have come almost within an ace of promotion. In 1957-58 they had their most successful season, scoring 57 points. That was the last year of the Northern and Southern sections of the Third Division. The following season Swindon were members of the newly formed Division III, and although having a moderate season, they gradually stepped up the pressure until they gained promotion to Division II in 1962-63. They tasted the sweets of their richly won promotion for one season only, because the following season nothing would go right for them, and down they came back to Division III. Last season saw them struggling hard to retrace their steps, but when the final table was published, they had gathered 51 points, one below Workington. The present season has not been a happy one for them, and they will be pleased when it is over, especially if they remain in Division III.

Last season Reds took three points from their visitors, winning 1-0 at Borough Park, and gaining a point at Swindon for an effort of 1-1. When we visited Swindon early during the present season we were well beaten 3-0. Today should offer us the chance of revenge.

Hard luck at Watford last week, an eye-witness informed me that our youthful goalkeeper Mike Rogan was unmercifully bundled into the net as he made an effort to clutch the ball in the air. The papers I read confirmed this statement. I am further told that man to man and as a team we were equally as good as Watford for 75 per cent. of the game. The only difference was that Watford were on the lucky side of the fence.

### BADGE COLLECTORS

Luton Town Supporters' Club have many football badge collectors among their members, and as we have many collectors among our supporters we wonder if there is any interest in exchanges between the two groups. If anyone is interested in exchanging badges with a Luton supporter they should contact me at 2, Skiddaw Street, Keswick.

### MANCHESTER UNITED BADGES

We have been fortunate in obtaining through the Manchester United S.C. a small quantity of their lapel badges. These badges, together with many dozens of others, league and non-League, are on sale at the Supporters' Club Shop at the entrance to the ground or by post from Sales Officer, 28, Ennerdale Avenue, Workington.
